WORK EXPERIENCE

TECHNICAL SUPPORT ENGINEER - REMOTE

Microverse

Feb 2020- Present

- Provide detailed code reviews on Ruby and HTML projects, thereby increasing the code quality of projects built by junior developers;
- Give instructions to students to improve their code, thus contributing to decrease the time spends on the projects;
- Help developers with their technical questions, resulting in increasing their satisfaction with the Microverse program.

FINANCIAL FORENSICS

Court of Minas Gerais

Jun 2015 - Jul 2019

- Technical writing, clarifying technical terms for users without financial background;
- Analysis of controversial issues and conclusive reports, providing proofs of the rights of each part;
- Review and update of financial values, evaluating precise values.

BANK MANAGER

Mercantil do Brasil Bank

Apr 2011 - Mar 2013

- Execution of the pilot project for a new bank branch model, resulting in the restructuring of the bank's flagship;
- Creation of interactive training modules for new hiring of managers, improving the overall speed of integration and employee retention;
- Definition of deadlines and targets for each team member, attaining the monthly goals with consistency.

EDUCATION

SOFTWARE TRAINING

Microverse Software School

2019 - 2020

- Program focused heavily on agile methodologies (including pair programming and daily stand-ups). Mentored two junior developers in both technical skills and professional development.

MASTER OF BUSINESS ADMINISTRATION

Newton Paiva University

2016 - 2017

BACHELOR'S DEGREE, ECONOMICS

Newton Paiva University

2009 - 2011
