WORK EXPERIENCE

TECHNICAL SUPPORT ENGINEER - REMOTE

Microverse **Feb 2020- Present**

- Provide detailed code reviews on front-end and back-end projects, thereby increasing the code quality of projects built by junior developers;
- Give instructions to devs to improve their code, thus contributing to decrease the time spends on the projects;

FRONT END DEVELOPER - HTML, CSS, JAVASCRIPT

Hotmart **Mar 2018 - Jun 2019**

- Maintained, optimized, updated, troubleshooting, thus improving the quality of existing websites;
- Collaborated with design and back-end team members to implement new features, thereby promoting the high-quality of the software;
- Performed code reviews, improving the quality of the code and speed of the pages.

JR. FRONT END DEVELOPER - HTML, CSS, JAVASCRIPT, WORDPRESS

Creative **Jun 2015 - Feb 2018**

- Implemented websites, landing pages, and applications from concept through deployment, with a responsive approach;
- Bug-fix, QA, testing, load testing, improving the quality of the blogs and pages;
- Customer support service and mentor of entry-level developers;

BANK MANAGER

Mercantil do Brasil Bank **Apr 2011 - Mar 2013**

- Execution of the pilot project for a new bank branch model, resulting in the restructuring of the bank's flagship;
- Definition of deadlines and targets for each team member, attaining the monthly goals with consistency.

EDUCATION

Training in Web Development, Microverse Software School   2020

- Program focused heavily on agile methodologies (including pair programming and daily stand-ups). Mentored two junior developers in both technical skills and professional development.

Master of Business Administration, Newton Paiva University   2017

Bachelor's Degree in Economics, Newton Paiva University   2012
